UPS Tariff/Terms and Conditions of Service (Tariff) were recently updated to allow approved shippers (a contract service available only to firearms shippers who are licensed importers, licensed manufacturers, licensed dealers, or licensed collectors, as defined by statute) to drop off **pre-processed firearm products** (i.e. prepackaged and prelabeled packages as outlined in an approved UPS agreement for the transportation of firearm products).

Also, UPS amended its live animal policy to allow shipment of **live non-venomous snakes**. This did not require a Tariff update but instead an update was made to the live animal policies listed on UPS' website [How To Ship Plants and Animals | UPS - United States](#). These shipments **must be prepackaged and prelabeled** and should be treated like any other drop-off package.

If a customer has an open or unlabeled package containing a firearm, firearm parts, or a live snake, inform them you are unable to assist with the shipment and refer them to UPS for additional details on becoming an approved shipper.

As a reminder, for items that are prohibited for drop-off or shipment from a The UPS Store location, customers should be directed to schedule a UPS pick up if there is no UPS facility that accepts drop-offs near your Center.
